

EWG's Skin Deep®

## Build your own report

Looking for a product and can't find it in Skin Deep®? Use EWG's Build Your Own Report tool to get an approximate score for that product.

These reports are for informational purposes only. Unlike information about products in Skin Deep®, these reports have not been reviewed by EWG scientists. The generated scores do not account for product form, how the product is used, sun protection (if any) or other aspects that are factored into the Skin Deep® rating. As such, these reports are meant solely to give you an estimate of the product score.

If you would like to see this or any other product in the Skin Deep® database, please contact [skindeep@ewg.org](mailto:skindeep@ewg.org).

\*\*Note that this tool should not be used for products with SPF.

Follow these instructions to build your own report:

- List the ingredients from the product's label. Separate them by commas.
- Do not include descriptive words or non-ingredients, such as "active ingredients," "other ingredients," "may contain," "natural," or "organic."
- If ingredients on the product label are grouped together, separate them when entering the information. For example, if the label includes "Extracts of vanilla, rose and lavender," simply enter "Vanilla Extract, Rose Extract, Lavender Extract."

Amino Acids, Rose Hip Oil, Wild Pansy Extract, Sweet Clover Extract, Apricot Fruit Extract, Sambucus Nigra Flower Extract, Cucumber Fruit Extract, Aspalathus Linearis Leaf Extract, Matricaria Flower Extract, Equisetum Arvense Extract, Nettle Extract, Black Cumin Seed Oil, Pumpkin Seed Oil, Nasturtium Extract, Nectarine Extract, Passion

**\*\*This is not an official Skin Deep® report. This product has not been reviewed by EWG scientists. These reports are for informational, non-commercial purposes only.\*\***

**The following report does not include any information about "Brassica Glycerides, Nectarine Extract, Passion Flower Extract, Bitter Orange Leaf Oil, Commiphora Guidotti, and Neroli Oil". Those ingredients were not matched in Skin Deep's database and therefore are not included in the evaluation.**

Score:

Data: Fair

LOW	Cancer
HIGH	Allergies & Immunotoxicity
MODERATE	Developmental and Reproductive Toxicity

### Other Concerns

**Other HIGH concerns:** Contamination concerns, Irritation (skin, eyes, or lungs), Occupational hazards, Persistence and bioaccumulation, and Use restrictions

**Other MODERATE concerns:** Endocrine disruption, Multiple, additive exposure sources, and Organ system toxicity (non-reproductive)

**Other LOW concerns:** Enhanced skin absorption, Ecotoxicology, and Neurotoxicity

#### ABOUT THE SKIN DEEP® RATINGS

EWG provides information on personal care product ingredients from the published scientific literature, to supplement incomplete data available from companies and the government. The ratings below indicate the relative level of concern posed by exposure to the ingredients in this product - not the product itself - compared to other product formulations. The ratings reflect potential health hazards but do not account for the level of exposure or individual susceptibility, factors which determine actual health risks, if any. [Learn more](#) | [Legal Disclaimer](#)

#### ABOUT EWG VERIFIED®

Beyond providing Skin Deep® as an educational tool for consumers, EWG offers its EWG VERIFIED® mark as a quick and easily identifiable way of conveying personal care products that meet EWG's strict health criteria. Before a company can use EWG VERIFIED® on such products, the company must show that it fully discloses the products' ingredients on their labels or packaging, they do not contain EWG ingredients of concern, and are made with good manufacturing practices, among other criteria. Note that EWG receives licensing fees from all EWG VERIFIED® member companies that help to support the
